The DLA-BSM Internet Bid Board System (DIBBS) is a web-based application that provides the capability to search for, view, and submit secure quotes on Requests For Quotations (RFQs) for items of supply included in the DLA Business System Modernization (BSM) Program. DIBBS also allows users to search and view Request For Proposals (RFPs), Invitations For Bid (IFBs), Awards and other procurement information related to BSM.
Registered User Log In
The BSM NSN/FSC Query Database can be used to determine if a particular National Stock Number (NSN) or Federal Supply Class (FSC) is included in the BSM Program. Beginning in November 2004, DLA will bring additional items and users into BSM during regularly sequenced rollouts. Information will be provided on these items as it becomes available. Additional information is available at the BSM Supplier Information Resource Center .

The DLA-BSM Internet Bid Board System (DIBBS) is a web-based application that provides the capability to search for, view, and submit secure quotes on Requests For Quotations (RFQs) for items of supply included in the DLA Business System Modernization (BSM) Program. DIBBS also allows users to search and view Request For Proposals (RFPs), Invitations For Bid (IFBs), Awards and other procurement information related to BSM.
Registered User Log In
The BSM NSN/FSC Query Database can be used to determine if a particular National Stock Number (NSN) or Federal Supply Class (FSC) is included in the BSM Program. Beginning in November 2004, DLA will bring additional items and users into BSM during regularly sequenced rollouts. Information will be provided on these items as it becomes available. Additional information is available at the BSM Supplier Information Resource Center .

In order to conduct transactions over the secure portion of DIBBS (submit electronic quotes on RFQs, view open auctions, search and submitted quotes), vendors must register in order to receive a User ID and Password.

All transactions conducted over the secure portion of DIBBS are encrypted and authenticated using a VeriSign Digital ID and Netscape secure socket layer (SSL) technology.

NOTE: For security purposes DIBBS will automatically log users out of the system after 15 minutes of inactivity.

NOTICE: *A gavel icon on the RFQ search results, the Web quote form, and/or the batch quoting validation results screens indicates that the requirement is an auction candidate. By submitting a quote on an auction solicitation you agree that your quoted price, and other price related factors, may be publicly displayed. Bidders remain anonymous.To view open auctions you must be logged in to the secure portion of DIBBS. For further details, please see the Master Solicitation for Automated Solicitations and Awards (PAC).*

Advanced Ship Notice/Manifest & Tracking

Help/Contact Info

Procurement Gateway

Welcome to Web-856!

Login

This site is provided by DSCR for its suppliers to generate an Advance Ship Notice (ASN) without the necessity to maintain a conventional EDI system. Upon login, the supplier may choose from a list of current contract PO numbers, and fill in the information to generate the ASN.

Contract information is restricted by the supplier's login.

In addition to shipment information, an easy link to online shipment tracking information is provided for approved carriers.

Please enter the User ID and Password from your Procurement Gateway User Profile account. If you need to set up a User Profile account please go to Procurement Gateway User Profile Setup and complete the registration form.
If you have forgotten your Procurement Gateway User ID or Password please contact Procurement Gateway Administrative Support. (Please include your Cage Code in your e-mail.)

What's New: This is the first version of Web-856.

Wide Area Workflow (WAWF)

- DoD WAWF-RA is a DCMA developed system for Government Vendors and authorized DoD users to generate,capture, and process receipt and payment documents.
- Interactive web-based application
- Provides complete transaction visibility
- Reduces interest penalties

- Eliminates paper from contracting life cycle
  - Electronic receipt/acceptance process
  - Electronic invoice/payments process

HOW DOES WAWF WORK?

- **Contractors submit invoices and inspection/acceptance documents**
  - **Interactivity on the Web manually or with VIM-ASAP**
    - **Via FTP or Fax**
    - **Via EDI**

- **WAWF notifies the government official**
  - **Receipt and acceptance process occurs**
  - **Payment officials issue payments using EFT**

  - **https://wawf.eb.mil/**

Electronic Invoicing Providing Options

- **VIM-ASAP** (**V**irtual **I**tem **M**anager – **A**RN **S**upply-chain **A**utomated **P**rocessing) is a collection of web functions that allows contractors to access digital contracts, track production status, prepare invoices, track payments, ship items as directed by MROs, and create all required documents
- VIM-ASAP provides nearly all the data required to prepare documents and transactions, and eliminates input errors that occur when completing documents on the Wide Area Workflow system.
- Currently in production at Defesne Supply Center Philadelphia, Clothing and Textile Division. Implementation at DSCR schedule for FY04.
